

AD/RF

AD/RF

This is a lateral radiograph (X-ray) of a horse's lower leg and hoof. The image shows the distal radius and ulna at the top, followed by the cannon bone (metacarpal III). The fetlock joint is visible in the middle, and the pastern bone leads down to the hoof. The hoof wall and sole are visible at the bottom. The text 'AD/RF' is printed in the upper right area of the image.

This is a black and white radiograph (X-ray) of a horse's hock joint, viewed from the front (anteroposterior view). The image shows the distal ends of the femur and tibia, the two heads of the calcaneus, and the distal ends of the ulna and radius. The joint space is visible between the bones. The text 'PD/RH' is printed in white on the left side of the image.
