CLINICAL AND RADIOGRAFIC EXAMS REPORT

CLINICAL EXAM

NAME OF THE HORSE: OLANOH 2

SIRE N°:

MICROCHIP N° 528210006019389

DATE OF BIRTH: 13/04/2019

Sex : Female stallion Gelding
Testis : none Abnormalities No Abnormalities

Build and posture - Good moderate Bad
Body conditions :

Jugular vein : normal deviant :

Mouth exam : Normal deviant Remark: SLIGHT OVERBITE

Piroplasmosis Test /babesia/Theileria : test type: Results: NEGATIVE NOT ACHIEVED

Uptodate vaccination: FLU EHV 1,4 TET

Respiration and cardiac exam before training :

Heart : Normal Abnormal Remark :
Respiration : Normal Abnormal Remark :

EYES EXAMS

Cornée : Normal Abnormal Remark :
Anterior chamber - iris - lens: Normal Abnormal.
Remark :

SKIN AND HAIR : Abnormalities

Pruritus sign : No Yes Remark :
Sarcoïd : No Yes Remark :
Tail and hair problem : No Yes Remark :
Skin marks : No Yes Remark :

Angular deviation, Hoof, muscular exam :

Angular limb : Normaux Abnormal Remark :

Hoof size : equal LF>RF or RF>LF Remark : RF FOOT LOWER AND LARGER THAN LF.

Pelvis: Symmetric Asymmetric Remark:

Muscular atrophy : No yes Remark:

LOCOMOTION EXAM :

Straight line WALK hard surface : Normal Abnormal Remarks :

« 8 » at walk : Normal Abnormal Remarks:

Straight line TROT hard surface: Normal Abnormal Remarks:

Trot: circle left and right soft surface : Normal Abnormal Remarks:

Canter: Circle left and right soft surface : Normal Abnormal Remarks:

Trot: circle left and right hard surface: Normal Abnormal Remarks:

Coordination abnormality (nervous system): No Suspect Yes

Dynamic flexion test (RF/LF/HR/HL): Negativ Positiv :

Remarks :

RESPIRATION, HEART EXAM DURING and AFTER LABOUR :

Heart : Normal Abnormal Remarks :

Respiration : Normal Abnormal Remarks :

Additional Noise : yes. No. Remarks :

Cough : Yes No Remarks :

REMARKS :

CONCLUSION OF CLINICAL and RADIOGRAFIC EXAMS

Following the examinations carried out today, our findings regarding the health status of this horse with a view to its intended future use are as follows:

- 0 - Absence of clinical anomaly or lesion incompatible with intended use.
- 1 - Presence of minor abnormality, frequently encountered in horses performing well in the discipline envisaged.
- 2 - Presence of clinical abnormality or lesions that may be encountered on horses performing well in the discipline envisaged, the management of which requires appropriate medical and/or surgical care and/or shoeing
- 3 - Presence of clinical abnormality or lesions likely to compromise the horse's future use.

X-RAY EXAM

Xray evaluation date : 24/06/2026

Xray from (vet / Clinic) : DR. ALBERTO BETTELLA

Xray are communicate by : PAARDENKLINIEK DE WATERMOLEN

Anatomic region	X-RAY Scoring	Description - REMARKS
FOOT RF_DP LM	0-1-2-4-8	
FOOT LF_DP LM	0-1-2-4-8	
FETLOCK RF_DP LM	0-1-2-4-8	
FETLOCK LF_DP LM	0-1-2-4-8	
FETLOCK RH_DP LM	0-1-2-4-8	
FETLOCK LH_DP LM	0-1-2-4-8	
TARSUS RH LM, DP	0-1-2-4-8	
TARSUS LH LM, DP	0-1-2-4-8	Small spurs on intertarsal and tarsometatarsal joints
STIFLE RH LM, DP	0-1-2-4-8	
STIFLE LH LM, DP	0-1-2-4-8	
CERVICAL	0-1-2-4-8	
BACK (THORACIC AND LUMBAR SPINOUS PROCESSES)	0-1-2-4-8	

ALLOCATION OF POINTS FOR RADIOGRAPHIC SCORES:

Grade 0 (0 point awarded): No significant radiographic abnormality
 Grade 1 (1 point awarded): Intermediate radiographic image (between normal and abnormal) of no clinical importance
 Grade 2 (2 points awarded): Abnormal radiographic image of unlikely clinical expression
 Grade 3 (4 points awarded): Abnormal radiographic image of probable clinical expression
 Grade 4 (8 points awarded): Abnormal radiographic image of definite clinical expression
 The radiographic score of a horse is the result of the addition of the points awarded during the study of radiographic images.
 Recent studies show that the average X-RAYS score of a 3-year-old population of sport horses is close to 5.

The conclusion of these exams results from the conditions under which the examination was carried out, the information communicated to the veterinarian performing the exams, the level of investigation required and the examinations carried out. The examinations carried out to date only attest to the current state of health and detectable risks in view of its use. The horse's future state of health and physical integrity will also depend on its lifestyle and conditions of use. Any potential buyer may request, at his own expense, additional exams to be carried out by the veterinarian of his choice, in agreement with EXTRAHORSE's sales managers.
